REASONS FOR ALLOWANCE

- 1. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or combined, teach or suggest a method of coating gold on samarium- or neodymium-containing magnetic nanoparticles employing a reducing agent and a reducible gold compound. Chemical reduction has been known to produce metal nanoparticle composite (such as Sun method), but not core-shell structure. The Zhou method teaches gold-iron core shell particles by reverse micelles method. In addition, neither Sun nor Zhou teaches coating method on specific samarium- or neodymium-containing magnetic nanoparticle core as claimed. The Cheon patent does not teach the use of reducing agent but relies on transmetalation reaction to form a core/shell metal nanoparticle.
- 2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on 571-272-1284. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
